EXPERIENCE

Monroe Library, Loyola University, New Orleans LA **2014 – present**

Systems & Information Resources Librarian, Assistant Professor (August 2017 – present)

- Coordinate the library’s information systems capabilities by integrating multiple systems to facilitate search, discovery, and delivery of library resources
- Act as the systems administrator/liaison in communication with LOUIS Consortium on systems matters including upgrades and monitoring/testing new integrated library system modules as they are released
- Manage library system-related statistics and reports
- Serve on the Teaching & Learning Team and Web Team

Interim Systems Administrator (August 2015 – July 2017)

- Ensured interoperability of multiple systems (discovery layer, link resolver, integrated library system, and journal holdings management)
- Supervised student worker on graphic design projects for library website
- Managed customization of library discovery system, beginning with creating the implementation plan for Jan 1, 2016 system migration
- Provided technical support to library patrons and internal users

Continuing Resources & Web Services Specialist (March 2015 – August 2015)

- Participated in website and integrated library system maintenance
- Prepared usage statistics and led annual serials subscription review meetings

Serials & Stacks Assistant (September 2014 – March 2015)

- Facilitated access to serials (print and electronic)
- Communicated with vendors to maintain periodical subscriptions

Tulane Americorps VISTA Member – Partner Site: Southern Food & Beverage Museum

- Created internship opportunities for undergraduate students at the Southern Food & Beverage Museum that met a component of the University’s public service graduation requirement
- Developed class assignments that enabled students to engage with the museum while meeting the course objectives as defined by the instructor
- Collaborated with group of thirteen volunteer curators to secure artifacts and create plans for a series of exhibits focusing on the culinary heritage of each Southern state
- Implemented the use of collections management software to track artifact donations
- Managed Kids Culinary day camp including recruiting, training, and supervising student interns who each focused on a teaching area: nutrition, cooking, and exercise

SERVICE

- LOUIS Remote Authentication Working Group (2018 – 2019)
- Judge for Poster Session, International Conference on Grey Literature (2018)
- LOUIS Service Desk Software Working Group (2018)
